

# MAGNUM® MMA-BH Beam Hanger

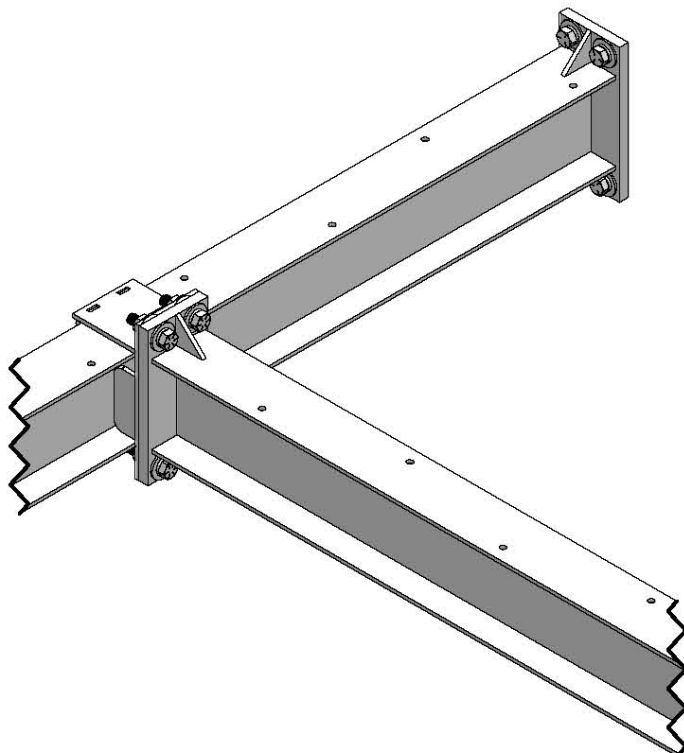

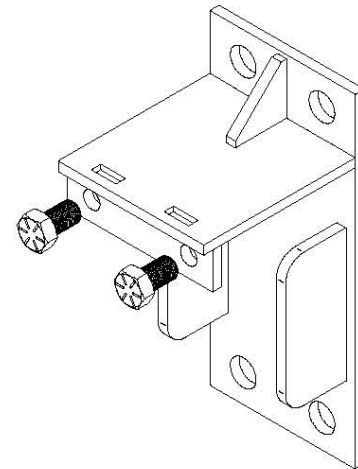

Mid-Support Beam Shear Connector

## Description

The Magnum® MMA-BH Moment Frame Beam Hanger consists of a Magnum 3/8" Beam End Plate and web stiffeners for full support on a Magnum Moment Frame Beam. The Beam Hanger is designed to attach to the side of a Magnum Moment Frame beam for perpendicular connections of beams where a column is not needed or necessary.

SPECIFICATIONS	
Hardware	(2) 3/4"-16 UNF SAE J429 Grade 5 Zinc Coated to ASTM B695/F1941
Bolts	(4) 7/8"-9 UNC SAE J429 Grade 5 Zinc Coated to ASTM B695/F1941
Connection	Torque 7/8" Bolts to 365 ft-lbs
Surface Coating	Galvanized per ASTM A153/A123 (G)

## Installation Notes:

The Magnum Beam Hanger should be used for specific cases, such as picking up intermediate support points in existing house frames.

*All Magnum Products Made in U.S.A.*  
U.S. Patent 9249593; Other Patents Pending.
