

MAGNUM® MMA-6WR 6-Way Receiver

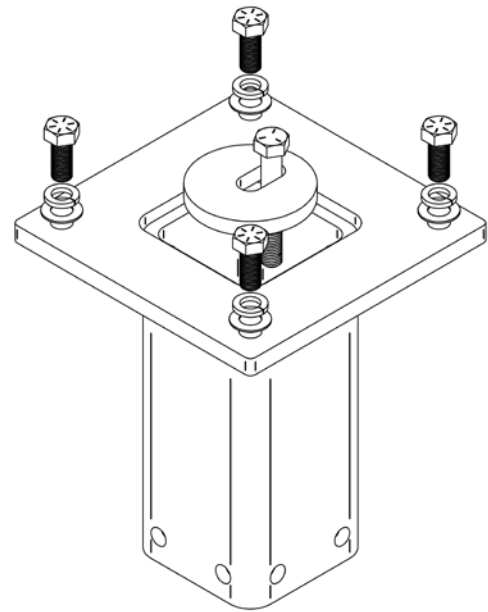

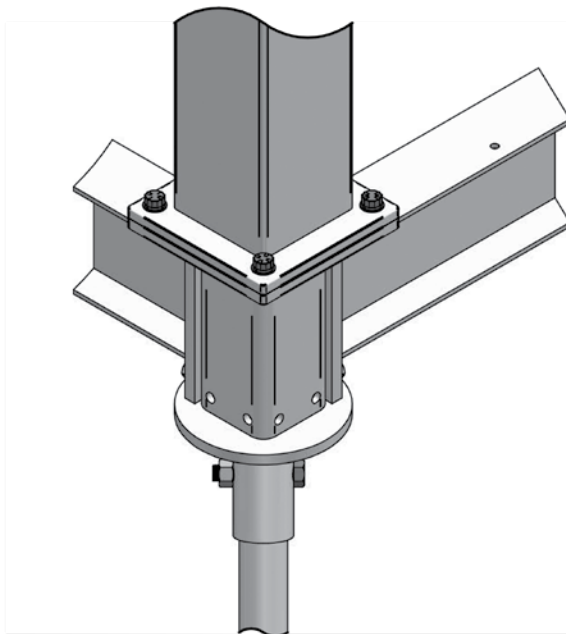

6-Way Receiver for Concrete-less Frame Construction

Description

The Magnum® MMA-6WR Moment Frame 6-Way Receiver consists of a 6-way connection that attaches to the base of a Magnum Moment Frame Column and can receive up to four Magnum Moment Frame Beams and secures to a Magnum Helical Pile. This allows for construction of Magnum Moment frames without the use of concrete.

SPECIFICATIONS	
Pile Connection	(1) 7/8"-9 UNC SAE J429 Grade 5 Zinc Coated to ASTM B695/F1941
Column Bolts	(4) 3/4"-16 UNF SAE J429 Grade 5 Zinc Coated to ASTM B695/F1941
Surface Coating	Galvanized per ASTM A153/A123 (G)

Installation Notes:

After installation of a Magnum Helical Pile Cap secure 6-Way Receiver to pile using the threaded bar and washer plate to clamp together. Place Magnum Moment Frame Beams and Columns as required for the project.

All Magnum Products Made in U.S.A.
U.S. Patent 9249593; Other Patents Pending.
