

MAGNUM® MMA-SWS Shear Wall Support

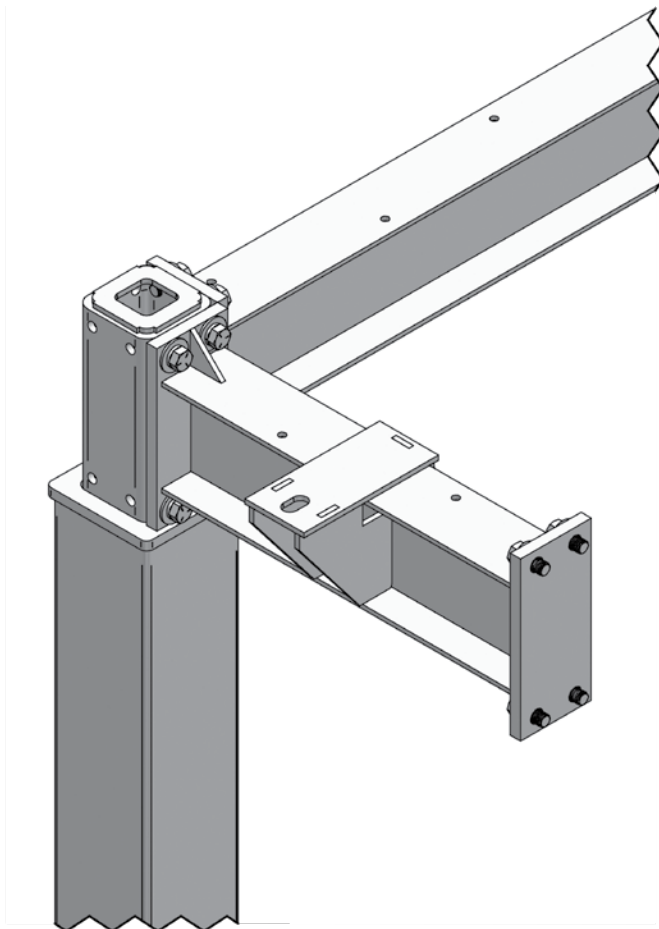

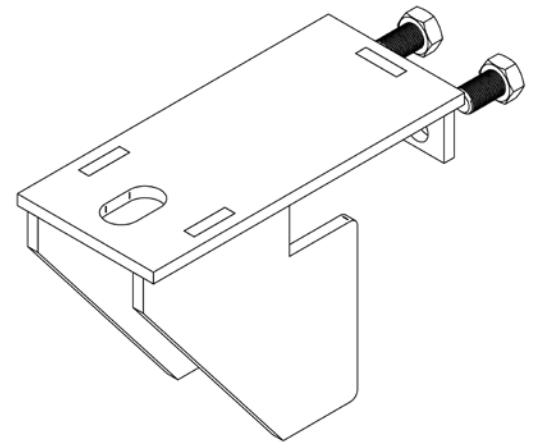

Shear Wall Support Connector

Description

The Magnum® MMA-SWS Moment Frame Shear Wall Support consists of individual hangers for shear walls of varying lengths to be supported, this allows a wide variety of shear wall products to be utilized. The shear wall products are to be bolted through the shear wall support per the manufacturers recommendations.

SPECIFICATIONS	
Bolts	(2) 3/4"-16 UNF SAE J429 Grade 5 Zinc Coated to ASTM B695/F1941
Shear Wall Connection	Up to 1-1/8" Threaded Anchor, Hold Down Assembly per Shear Wall Manufacturer
Column Offset	Varies from 6" - 10"
Surface Coating	Galvanized per ASTM A153/A123 (G)

Installation Notes:

Column offsets should be determined by a design professional and are measured from inside of sheathing to center line of Magnum Moment Frame.

All Magnum Products Made in U.S.A.
U.S. Patent 9249593; Other Patents Pending.
