

MAGNUM® MHA4130

Torque Motor Skid

Storage and Transport Skid for Torque Motors with
2-1/2" or 2" Hex Kelly bar

Description

The MAGNUM MHA4130 is a storage and transport skid that accommodates a variety of torque motors having a 2-1/2" or 2" hex kelly bar. The skid creates a secure transportation and storage location for your torque motor, allowing for easy reattachment to equipment. The convenient tie down holes and lifting pockets make loading and unloading your torque motor easier, while avoiding costly damage to your torque motor during transport.

All Magnum Products Made in U.S.A.
U.S. Patents 6,058,662 and 5,234,287; Other Patents Pending.

Note: Consult a MAGNUM Sales Representative if interested in a torque motor skid for your torque motor.
