MANUFACTURING ANNOUNCEMENTS

A+ in Continual Improvement

We pride ourselves on meeting our quality objectives. From your customer feedback we have focused our entire Magnum Team on **TURNAROUND TIME**. There are many factors that contribute to your projects being started and completed on time. We have worked very hard over the winter months to improve raw materials and manufacturing processes in the plant. Magnum is proud to announce that our Average Turnaround time has been reduced to 8 DAYS!!

ENGINEERING Announcement

Introducing a New Support Engineer

Magnum is proud to announce Matthew Houliston as the recent addition to the engineering and sales staff as a Support Engineer. Matt is on schedule to graduate from the University of Cincinnati in June, 2012 with his Bachelors degree in Civil Engineering. His past experience includes approximately a year and a half of work inside a local Cincinnati structural engineering office. He has also completed coursework in deep foundation design at UC. In his personal time, Matt enjoys spending time with his family and friends, playing softball and golf, and working on houses. He is excited to begin working with you in the near future.

NOTES FROM THE FIELD

Announcing Our New Facebook Page

Please visit and like our facebook page to see where our deep foundation products have been used to remedy various geotechnical issues. We will be updating this page with new projects where Magnum products are used. BJ will be checking in periodically to let everyone know where he is traveling.

Check the page often for more information about Magnum Piering and new exciting product announcements. Please click the picture to be taken directly to our Facebook page.

Thank you for your time and interest. Contact us for your helical pile, push pier, deadman anchor, and other foundation product needs!
