

CASE HISTORY

Anticline & Aeolus Wyoming Substations

**80) MH542B & MHC1304-5 caps
(152) MH745B & MHC1304-7 caps
(296) MH939B & MHC1304-9 caps
(101) Magnum Utility Grillage
Structures**

The project installed numerous all steel foundations for power transmission poles in very remote site locations. The all steel foundations provided flexible construction methods and provided a cost effective solution compared to other foundation designs.

U.S. Patent Nos. 10947688B2, 10767334B2, 10934678B2
